PROFILE

Brand identity designer with a background in forensics and cybersecurity — disciplines built on reading systems for the gap between what something is and what it projects. That same methodology now drives the design work: evidence-based brand diagnosis, strategic positioning, and precision-built visual identity systems that resolve brand perception gaps. Specializes in end-to-end brand identity — from creative brief and brand strategy through logo system, brand guidelines, and environmental application.

EXPERIENCE

Bakkengrow — Asset Management

Brand Identity Design

- Developed brand strategy and complete visual identity system — logo system, wordmark, color language, and typography — repositioning brand perception from speculative to institutional.

Veenu — Cafe & Restaurant

Brand Identity Design

- Built complete brand identity system for a new highway restaurant — logo, color palette, visual language, and brand positioning — to differentiate in a competitive corridor market.
